Sustainability

Article ref	ND-9632
Composition	83.8% Cotton 13.8% Coolmax 2.4% Lycra
Color	Indigo
Weight	9.5 oz (BW)
Width	55/56

Moisture Wickings Fabric
 # High consistency on fabric performance over time
 Easy-Care
 # Good moisture management and wicking performance
 # Good air permeability
 # Good fabric stability
 # Permanent moisture management performance
 Excellent wash fast and colorfast performance
 # Environment-Friendly: It results from an agriculture and environmental friendly method.

#9633

Article ref	ND-10153
Composition	70.5% Cotton 14% Recycle Nylon 14% Poly 1.5% Spandex
Color	Indigo
Weight	10.25 oz (BW)
Width	53/54"

Recycle Nylon

#Recycled Nylon has the same benefits as recycled polyester: It diverts waste from landfills and its production uses much fewer resources than virgin nylon (including water, energy and fossil fuel).

#A large part of the recycled nylon produced comes from old fishing nets. This is a great solution to divert garbage from the ocean. It also comes from nylon carpets, tights, etc.

#Recycling nylon is still more expensive than new nylon, but it has A lot of research is currently being conducted to improve the quality and reduce the costs of the recycling process.

Article ref	ND-9609
Composition	82%Cotton 18%Linen
Color	IBST
Weight	9.8 oz (BW)
Width	60/61

Recycle Linen

Linen is a natural fiber which stems from the flax plant. It uses considerably fewer resources than cotton or polyester (such as water, energy, pesticides, insecticides, fertilizers).

Flax can grow in poor soil which is not used for food production. In some cases, it can even rehabilitate polluted soil. Flax plants also have a high rate of carbon absorption.

For these reasons, we consider linen to be a sustainable material, even when it is not organically grown.

Article ref	ND-5463
Composition	91% Cotton 3.2% Magnetic poly 4.3% Bamboo Charcol 1.5% Lycra
Color	Indigo
Weight	7.5 oz (BW)
Width	54/55"

Antimicrobial Fabric

antimicrobials is to help prevent bacteria & reduce the spread of disease

antimicrobial is constantly working against microorganism, Do not cause allergic reaction, Be non-toxic and safe to use on broken skin able to control bad odors and fight germs over time.

Have a broad-spectrum antimicrobial effect; Have sustained antimicrobial effect during the useful lifetime of the material.

#5463

Article ref	ND-1456WL
Composition	77.6% Cotton 20% Poly 2.4% Lycra
Color	Indigo
Weight	9.7 oz(BW)
Width	53/54"

Waterless Dyeing Technology
Saving of 3.2 billion liters of water the amount which is equal to provide drinking water for the 3.25 million people per year.

Article ref	ND-9633
Composition	83.6% Cotton 14% Thermolight 2.4% Spandex
Color	Indigo
Weight	9.0 oz(BW)
Width	51/52"

Moisture Wickings Fabric

- # High consistency on fabric performance over time
- Easy-Care
- # Good moisture management and wicking performance
- # Good air permeability
- # Good fabric stability
- # Permanent moisture management performance
- Excellent wash fast and colorfast performance

Product feature

- # Environment-Friendly: It results from an agriculture and environmental friendly method.

#THERMOLITE® hollow-core fibers trap warm air for greater insulation that remains breathable. It also wicks moisture away from your skin for enhanced comfort and dryness - a particular benefit during periods of aerobic or energetic activity. Durably constructed, this performance fabric delivers exceptionally resilient wear.
