Sustainability

Article ref	ND-9173
Composition	99%Organic Cotton 1%Spandex
Color	Indigo
Weight	11.8 oz (BW)
Width	58/59

Product feature

Environment-Friendly: It results from an agriculture and environmental friendly method. Producing organic cotton uses lower carbon due to lesser fuel and energy consumption. Because it goes through a chemical free production process, it also prevents water contamination.

Safety Standards : Organic clothing products are safer as manufacturers adhere to very rigid and stricter manufacturing standards

Avoid Allergies and Skin Concerns : There are no chemical retentions from organic cotton clothing; thus, people with allergies or with specific chemical sensitivity will greatly benefit from using organic cotton in clothing fabric. It feels better on your skin too even if you are not suffering from allergies or chemical sensitivities.

Product feature

REPVE is the world's number one brand of recycled performance fiber. Our high-quality fibers are made from 100% recycled materials, including post-consumer plastic bottles and pre-consumer waste. They are also certified and traceable.

REPVE brand to foster a sustainable world by diverting plastic bottles—billions of them—from landfills and oceans. We also collect and reuse industrial waste, starting with our own.

REPVE helps to offset the use of petroleum, emitting fewer greenhouse gases and conserving water and energy in the process.

REPVE fiber to add benefits like comfort, protection, and durability. Blending REPVE with performance technologies means there's no reason to make sacrifices when using sustainable yarn.

Recycling more than 15 billion plastic bottles, and we're aiming for 20 billion bottles by 2020!.

Article ref	ND-7377
Composition	77.4% Cotton 7% Viscose (Ecovero) 14.4% Poly 1.2% Lycra
Color	Indigo
Weight	10.0 oz (BW)
Width	55/56»
Stretch	37% (±5)

Product Feature
 #Ecovero™ Viscose fibers are derived from sustainable wood and pulp, coming from certified and controlled sources.
 #Lenzing ECOVERO™ fibers have been certified with the EU Ecolabel as meeting high environmental standards throughout their life cycle: from raw material extraction to production, distribution and disposal.

Article ref	NDS D028
Composition	32%Cotton 68%Tencel(Refibra)
Color	Black
Weight	5.75 oz(BW)
Width	63/64

Product feature

-High performance in both stretch and recovery ,Super soft handfeel.
Authentic look with high stretch (60-66%)
#The new TENCEL® generation Refibra™ stands for "Reduce, Reuse and Recycle, this new kind of fiber is made of recycled materials promising reduced reliance on natural raw materials.

SAAD
GROUP

Article ref	ND-10189A
Composition	47.5%Cotton 34%Viscose 16.5%Hemp 2%Spandex
Color	Indigo
Weight	9.75 oz(BW)
Width	55/56

Product feature

Hemp one of the fastest growing plants and it doesn't need much water, energy, pesticide, or fertilizers. The plant is very good for soil, it can be grown for many years in the same place without exhausting it. This is why hemp is considered to be eco-friendly.

Hemp has very similar properties to linen. They are often difficult to differentiate.

However, as hemp belongs to the same family as cannabis (although it does not have the same psychoactive effects), growing hemp is heavily regulated or prohibited in many countries.

Article ref	ND-3881 Cradle
Composition	98%Cotton 2%Spandex(Recycle)
Color	Indigo
Weight	9.00 oz(BW)
Width	56/57

Product feature

- # Harmful Dyes and Chemical are restricted Only we use C2C certified chemicals.
- # Cradle to Cradle Material Health Certification.
- # We are using Bio Degradable Elastomer name ROICA from Japan. *Roica*™ EF as the world's first *recycled elastic* polyurethane filament (*spandex*) product, as well as an environmentally friendly *spandex* product featuring low oil content. ... Led by the *Roica*™ brand.
- # ROICA C2C (Cradle-to-Cradle) Gold Level material health certificate, and is also a Hohenstein Environment Certificated yarn, where at its end- of-life, it smartly breaks down without releasing any harmful materials

Biodegradable
